Good morning,

Included are photos of SC-S015. The PID was calibrated and maintained a constant reading of 0ppm from 0ft - 10ft. At depth 11ft, the PID read 1.4ppm, and the Pre-RD group observed a slight rainbow streak at 12ft with no odor.

The Pre-RD group will only be processing one core today. Core processing will continue tomorrow for cores collected 8/13

Jonni

Photo 1: core contents are extracted

Photo 2: core is measured in 2ft intervals

Photo 3: core contents are sampled
